

To work with the module

When you try to enter the command `python setup.py build /`
`python setup.py install` in cmd, you will get the error Unable
to find `vcvarsall.bat`:

```
C:\Users\eidzh\Desktop\gg>python setup.py build
C:\Users\eidzh\Desktop\gg\setup.py:1: DeprecationWarning: The distutils package is deprecated and slated for removal in
Python 3.12. Use setuptools or check PEP 632 for potential alternatives
  from distutils.core import setup, Extension
running build
running build_ext
building 'sortP' extension
error: Unable to find vcvarsall.bat
```

- To avoid it, you need to download [build tools](#).
- And in the pop-up window, check this box and start the installation process:

If you try again, everything will work:

```
Создание кода
Создание кода завершено
```
